

Future in Focus

Work Experience Program in Reproductive and Children's Health Research

We are looking for the future generation of scientists who can help with the most pressing reproductive health issues. Our aim is to improve fertility, pregnancy outcomes and early childhood outcomes in Australia and the world.

About the program

The Future in Focus Work Experience Program is designed to be engaging, exploratory and hands-on. Aimed at Year 10-12 students with a passion for science, medicine and/or health, this is an exciting 3-day work experience program at the Robinson Research Institute, where you can expect to:

- Get hands-on experience in real research laboratories
- Explore topics like fertility, genetics and reproductive health
- Hear about real-world medical challenges
- Meet scientists, doctors and innovators
- Discover career pathways in STEM and health research

Program schedule

Day 1: Wednesday, 15 October, 9:30am - 4:30pm

- Introduction to the Institute
- Hear about research as a career
- Research lab visit
- Neonatology at the Women's & Children's Health Network

Day 2: Thursday, 16 October, 10:00am - 4:00pm

- Endometriosis research at the Robinson Research Institute
- Humans and artificial intelligence
- Tour of the Adelaide Health and Medical Sciences Building (AHMS) and Adelaide Health Simulation suite
- Human reproduction in space

Day 3: Friday, 17 October, 9:00 - 5:00pm

- Attend our annual research Symposium at the National Wine Centre, hear about cutting-edge research and meet scientists and students from our Institute

Details

Dates:	15 - 17 October 2025
Location:	Adelaide and North Adelaide
Number of places:	5

Apply now

Apply by:	31 August 2025
Outcomes advised:	15 September 2025
Apply online:	https://www.adelaide.edu.au/rri/about-us/future-in-focus
