Organise and manage
Analyse and synthesise
Analyse and synthesise
Communicate and apply
Communicate and apply
f. Communicate & apply
How do we relate?
What can we conclude?
What do our results mean?
How can we apply this to other problems?

e. Analyse & Synthesise
What does it all mean?
Explain results.
Have all the necessary calculations been made or do we need to return to the centre?

d. Organise & Manage
How do we arrange?
How can we manage pre-existing knowledge in this particular context?
What calculations can we do?

b. Find & Generate
What do we need?
What are the unknowns?
What do we need to find?

c. Evaluate & Reflect
What do we trust?
What can we know?
What knowledge can we draw upon?

a. Embark & Clarify
What is the purpose?
What is the task/calculation to be solved?
