

# MASTERCLASS

# RESEARCH - POLICY PARTNERSHIPS

## Call for expressions of interest

Are you a researcher interested in seeing your research translated into policy and practice?

Are you a policy professional interested in using evidence to improve your policy making?

### Learning Objectives

- Examine the value of collaborative partnerships in producing evidence-informed policy
- Explore methods designed to enhance research and knowledge translation
- Clarify different terminologies used in research and policy making endeavors
- Become familiar with the key processes used in research and policy making

### Masterclass Outcomes

- Share experiences with researchers and policy actors in an interactive space
- Develop skills and expertise in collaboration for research-to-policy translation
- Explore opportunities for working across research-policy boundaries
- Network and build research and policy partnerships
