

Policy Update 2024

Academic Progress by Coursework Students Policy

All students are advised that the Academic Progress by Coursework Students Policy has been revised. Several changes to the content have occurred and it is important that you familiarise yourself with the updated policy. The revised policy will become effective on **22 July 2024**.

Here are some of the important changes you need to know:

- i. Students who receive a Results Pending (RP) grade will have their Risk status reviewed again once this grade has been finalised.
- ii. The requirement for students who have been identified as being at Risk to complete a self-reflection survey has been removed. Students will now be contacted and offered an opportunity to discuss their academic progress with a University of Adelaide staff member, and will be made aware of support services available to them .

Please refer to the full [Academic Progress by Coursework Students Policy](#) for further information.
