INSTRUCTIONS

Who should use this form?
This form applies to all international fee paying students at the University of Adelaide who withdraw from their program before the census date in their first term of enrolment, and who seek a full repayment of the Administration Fee they have paid for withdrawal due to special circumstances having prevented them from successfully continuing their study.

What special circumstances are accepted?
In all cases, special circumstances must have a significant impact on you and your ability to commence or complete the course(s) you have undertaken to study. Therefore you should demonstrate that the circumstances:

(a) are beyond your control; are not a result of your action or inaction; and are unusual, uncommon or abnormal; AND
(b) occur after your acceptance of your offer AND before the census date OR occur before your acceptance of your offer, BUT worsen after that day and before the census date, OR occur before your acceptance of your offer BUT the full effect or magnitude does not become apparent until after that day and before the census date; AND
(c) make it impracticable for you to commence or continue the attendance and/or assessment requirements of your program.

Why do I need independent supporting documentation?
Your application will be considered principally on the basis of your independent documentation to support your claims. It is not sufficient to provide only a personal statement outlining your special circumstances. Supporting independent documentation must demonstrate how your circumstances affected your ability to commence or continue study in your program, the date the special circumstances began or changed, and when it became apparent that you could not commence or continue your program. Supporting documentation may include:

For medical reasons:
Eg, where your medical condition has changed to such an extent that you are unable to commence or continue studying in your program:
- a statement from a treating doctor

For family/personal reasons:
Eg, death, severe medical problems or unforeseen financial difficulties within a family so that it is unreasonable to expect you to commence or continue studying in your program:
- a statement from a doctor, counsellor or independent member of the community (depending on the individual circumstances involved)

For employment-related reasons:
Eg, where your employment status or arrangements have changed so that you cannot commence or continue studying in your program:
- a statement from your employer.

Supporting documentation must be signed original documents, i.e. not copies or faxes, and should be on appropriate company or business letterhead. Medical documentation must include a relevant Medicare provider number for the medical professional.

Once your application has been received, the International Office or International Student Centre will be contacted by Student Finance to provide further information to support your application. The outcome of your application will therefore also be dependent upon this additional information provided.
Application Period
Your application must reach Student Finance, within 12 months from the date you withdrew from your program. These arrangements apply to both standard and non-standard study periods.

A lack of knowledge or understanding of the requirements for applying for a repayment is not a valid reason for applying after the deadline. The 12-month timeframe is set by the University, and applications after this time cannot be considered under normal conditions. In the event an application is submitted after the 12-month timeframe, the application must also be accompanied by further independent evidence providing additional support for the medical/family/personal/employment related reasons for the late application. The additional evidence supporting the late application, outside of the 12-month timeframe, will be assessed separately and distinctly to that provided to support the special circumstances for the relevant study period.

What happens to my application after it has been lodged with Student Finance?
You will receive a letter confirming the receipt of your application and case number. You will be advised of the outcome of your application within 28 days of the receipt of your application and/or supporting evidence [whichever is the later]. If further information is required from you, it will be requested via your student and/or personal email.

If you are not satisfied with this decision, you may apply in writing to the General Manager, Student Services and Administration at the University for a review of your case.

If your application for a repayment of Administration Fee is successful, you will receive a repayment for the Administration Fee to which your successful application relates. The repayment will be made to your nominated bank account.

Privacy
Personal information collected on this form or supplied by you to the University is treated in the strictest confidence. The information collected is used solely for the purpose of assisting the University to make an informed decision on your case.

Permission to consult Counselling & Disability Services
Sometimes it may be helpful to consult staff in Counselling & Disability Services to establish the nature and severity of a student’s special circumstances. Students have the option on their application form (pages 3 and 4) to indicate whether they wish this consultation to occur.
