# Professional Activities

Professional Activities are added and edited in Aurora. You can add a range of additional career information, such as **Boards** or **Committee's** you may sit on, **Awards** you've received or many other activity options which can be found in the drop down menu. Alternatively, you can click the **Manage** link on the Edit profile Page or **Add** information from the Summary section on the Home page.

Populate the relevant fields in the form that opens. Remember to **Save** at the bottom of the page.

The changes will appear in your Researcher Profile the following day. Alternatively, you can contact Aurora Support your School/ Faculty staff with editor or admin rights to force an almost instant synchronisation or Go to RP Profile and click GET LATEST CHANGES FROM AURORA
