

Editing your Profile

Adding or updating your profile information for your Researcher Profile (RP), including a **Profile Photograph**, **Academic** or **Non-academic experience**, **Research Interests**, **Education**, external **Mailing** and **Web addresses** and more, is done through Aurora.

An overview or short biography can also be added here to and will feature prominently on your Researcher Profile landing page.

Once you've selected **Edit your profile** in Aurora, add a new entry by selecting the relevant link.

To edit an entry, click on the orange pencil next to the relevant section for editing.

The changes will appear in your Researcher Profile the following day. Alternatively, you can contact [Aurora Support](#) your School/ Faculty staff with editor or admin rights to force an almost instant synchronisation or Go to RP Profile and click

Editing Other information

On the Home page in Aurora, you will find a summary of your publications, professional activity, teaching activity and grants. You can use the **+ add** button to edit the relevant information.

Summary

Add Information

Alternatively, when you click Edit your profile, you can add information to publications, professional activity, teaching activity and grants by clicking the **Manage** link.

The Aurora Menu also provides tabs that help you edit these areas.
