

Making your profile public

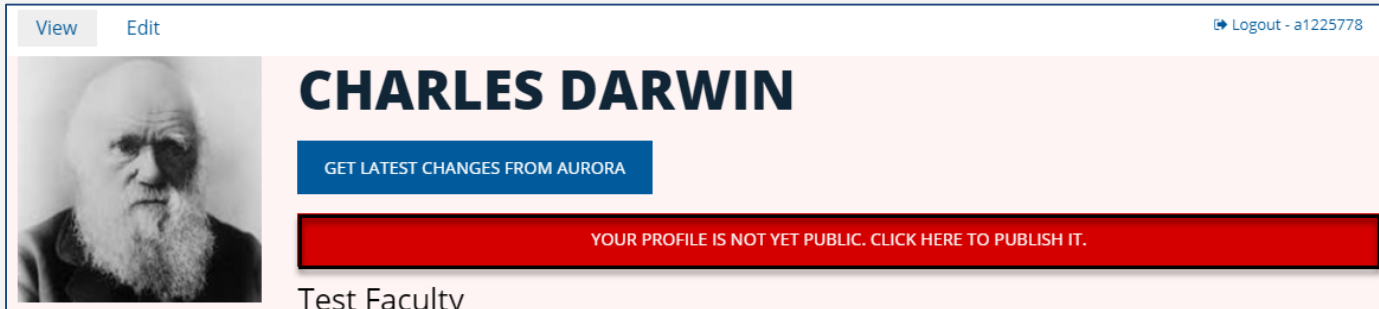

Initially your profile is set to be private so only you can view your profile.

When you are satisfied with your Researcher Profile you have the option to make it public so anyone inside or outside of the university can view your profile.

To do this, simply select the large red button 'YOUR PROFILE IS NOT YET PUBLIC. CLICK HERE TO PUBLISH IT.'

Once you make your profile public, anyone can view it but they will not be able to change anything on your profile.

If you need to revert your profile back to private, please contact the [Support Team](#).
