Introduction
To configure Apple Mail to access your University student email account

Procedure
1. If you are adding your University email account alongside your other accounts, click Mail > Add Account -> Add Other Mail Account

2. Enter the following details:
   - Full Name: Your Name
   - Email address: a1234567@student.adelaide.edu.au
   - Password: your password
   
   Click ‘Create’, and then ‘Next’

3. In the Incoming Mail Server Info window, enter the following details:
   - Mail server: imap.gmail.com
   - Username: a1234567@student.adelaide.edu.au
   - Password: your password

   Then click ‘Next’

4. In the Outgoing Mail Server Info window, enter the following details:
   - Mail server: smtp.adelaide.edu.au
   - Username: a1234567
   - Password: your password

   Click ‘Create’
