

Zoom – SSO Login

Introduction

Zoom enables the use of Single Sign-On (SSO) in order to login. To do this you need to use the domain **adelaide.zoom.us**

Procedure

1. Launch Zoom and select 'Sign In'.
2. Select 'Login with SSO'.
3. Enter 'adelaide' in the domain name field. It should then read 'adelaide.zoom.us'.
4. A University of Adelaide login box will appear, here enter your ID number and password and select 'Sign In'.

The first screenshot shows the Zoom Cloud Meetings login window. It has a 'Login' tab and a '(or Sign Up)' link. There are input fields for 'Email' and 'Password', a 'Keep me logged in' checkbox, and a 'Forgot your password?' link. On the right, there are three login options: 'Login with SSO' (selected), 'Login with Google', and 'Login with Facebook'. A 'Back' button is at the bottom left.

The second screenshot shows the 'Login with SSO' window. It has a title 'Enter your company domain'. There is a text input field containing 'adelaide' and a '.zoom.us' suffix. Below the input field is a link 'I don't know the company domain'. There is an unchecked checkbox 'Open in default browser'. At the bottom are 'Back' and 'Continue' buttons.

The third screenshot shows the University of Adelaide login window. It features the university's crest and name. Below the name, it says 'Please login using your University of Adelaide Username (e.g. s1X000000) and Password'. There are two input fields: the first contains 's1234567' and the second is masked with dots. A 'Sign in' button is at the bottom.
