How do I print from ADAPT STAFF ?

Introduction

This guide will discuss the different possibilities in printing via ADAPT STAFF.

Follow you enabled printer (Currently student printers only)

A “follow you” printer will be added, printing to this service will allow you to collect your print jobs from compatible “follow you” enabled printers. Swipe your staff/student card on the printer and collect your print. Print jobs will only be retained for a few hours, if they are not released within this time frame, they will be removed from the “follow you” service.

Follow you printing is not currently available for staff printers. The solution for follow you printing for staff is coming soon.
